Why chlorine is harmful in tap water
The chlorine ion weakens the skin immunity function, accelerates the skin to get older, causes the skin to be dry, damages the hair, induces the allergic dermatitis. According to the overseas correlation research institution's research results, that, every day showers when on the skin absorbs the quantity of chlorine ion is drinks
The chlorine ion which absorbs with the tap water to measure more than 6 times. For ours health, we should not the excessive use contain

the chlorine water source.

Healthy skin, lubricates elegant hair, begins here
Has concentrated medicine 3000 lemon component vitamin c, the essence block which made of naturak essence ingredient purifies ceaselessly in in the water, breaks up residual bacterium from the pore quickly, replenish a vitamin with nutrition at the same time unceasingly, lustre keeping skin flexible, and nourishes hair.

Nice bath and saving water
Turn tap water into real healthy organism's habits water, like the
natural spring in the forest, physically and mentally healthy negative
oxygen ion, let every cekll be entered nutrition, make the skin enjoy
gentle and salubrious feeling from water with aroma of vitamin c
and enjoy life in whole day.
